

CONTENTS OF VOLUME 22

Number 1, September 1991

Original Papers

- Treatment strategies for advanced and metastatic cancer in Europe
P. A. Lawton and E. J. Maher in association with ESTRO (U.K.) 1
- Acute mucositis in the stimulated oral mucosa of patients during radiotherapy for head and neck cancer
B. Maciejewski, A. Zajusz, B. Pilecki, J. Swiatnicka, K. Skladowski, W. Dorr, J. Kummermehr and K. R. Trott (Poland, U.K.) 7
- Long-term morbidity of adjuvant infradiaphragmatic irradiation in patients with testicular cancer and implications for the treatment of stage I seminoma
Ch. Glanzmann, G. Schultz and U. M. Lütolf (Switzerland) 12
- Technical considerations in the use of 3-D beam arrangements in the abdomen
R. K. Ten Haken, T. S. Lawrence, D. L. McShan, R. J. Tesser, B. A. Fraass and A. S. Lichter (U.S.A.) 19
- A comparison of techniques for stereotactic radiotherapy by linear accelerator based on 3-dimensional dose distributions
J. D. Graham, A. E. Nahum and M. Brada (U.K.) 29
- Results of radiotherapy in patients with stage I orbital non-Hodgkin's lymphoma
J. G. J. Letschert, D. González, J. Oskam, L. Koornneef, J. D. P. van Dijk, R. Boukes, J. Bras, P. van Heerde and H. Bartelink (The Netherlands) 36
- The simultaneous boost technique: the concept of relative normalized total dose
J. V. Lebesque and R. B. Keus (The Netherlands) 45
- The effect of scheduling in children undergoing prophylactic cranial irradiation for acute lymphoblastic leukaemia
S. A. Costello, R. D. Jones and A. Barrett (U.K.) 56
- Effects of hyperthermia applied to previously irradiated cervical spinal cord in the rat
P. Sminia, J. Haveman and C. Koedooder (The Netherlands) 60
- Short Communication**
- A semi-automated method for breathing rate measurement in the mouse
S. P. Lockhart, D. Hill, S. King and J. D. Down (U.K.) 68
- Meeting Agenda** 71
- Courses** 71
- Announcements** 73
- Errata** 77

Number 2, October 1991

Editorial

- Nicotinamide and the hypoxia problem
M. R. Horsman (Denmark) 79

Original Papers

- A therapeutic benefit from combining normobaric carbogen or oxygen with nicotinamide in fractionated X-ray treatments
E. Kjellen, M. C. Joiner, J. M. Collier, H. Johns and A. Rojas (Sweden, U.K.) 81
- Modulation of tumor oxygenation and radiosensitivity by a perfluorooctylbromide emulsion
S. Rockwell, M. Kelley, C. G. Irvin, C. S. Hughes, E. Porter, H. Yabuki and J. J. Fischer (U.S.A.) 92
- In situ tumour radiosensitization induced by clofibrate administration: single dose and fractionated studies
G. Calais and D. G. Hirst (U.K.) 99

Non-randomized comparative study of irradiation alone or in combination with surgery in stage Ib, IIa and "proximal" IIb carcinoma of the cervix <i>J. M. Bachaud, R. Chuan Fu, M. Delannes, F. Izar, P. Martel, J. M. David, R. E. Shubinski, N. J. Daly and G. S. Montana (France, U.S.A.)</i>	104
Bladder carcinoma – a 20-year review of radical irradiation therapy <i>S. Jahnsen, J. Pedersen and G. Westman (Sweden)</i>	111
High dose hyperfractionated radiotherapy in the treatment of extremity soft tissue sarcomas <i>M. Robinson, A. Cassoni, C. Harmer, C. Fisher, J. Thomas and G. Westbury (U.K.)</i>	118
Lung damage following bone marrow transplantation after hyperfractionated total body irradiation <i>P. Latini, C. Aristei, F. Aversa, F. Checcaglini, E. Maranzano, C. Raymondi, B. Moira Panizza, E. Perrucci and M. F. Martelli (Italy)</i>	127
Parotid gland function following accelerated and conventionally fractionated radiotherapy <i>M. D. Leslie and S. Dische (U.K.)</i>	133
Technical Note	
The use of carbon fibres in radiotherapy <i>L. G. de Mooy (The Netherlands)</i>	140
Short Communications	
Effects of single dose irradiation of pancreatic beta-cell function <i>Y. Sarri, C. Conill, E. Verger, C. Tomas and R. Gomis (Spain)</i>	143
Results of external beam irradiation for rectal carcinomas locally recurrent after local excision of electrocoagulation <i>C. Shun Wong, B. J. Cummings, T. J. Keane, B. O'Sullivan and C. N. Catton (Canada)</i>	145
Meeting Agenda	149
Courses	149
Announcement	151
<i>Number 3, November 1991</i>	
Document	
The European core curriculum on radiotherapy <i>J. W. H. Leer, J. Overgaard and G. Heeren (Belgium)</i>	153
Rapid Repopulation in Radiotherapy: A Debate on Mechanism	
The phantom of tumor treatment – continually rapid proliferation unmasked <i>J. F. Fowler (U.S.A.)</i>	156
Rapid Repopulation in Radiotherapy: A Debate on Mechanism	
Accelerated repopulation in tumours and normal tissues <i>K. R. Trott and J. Kummermehr (U.K., F.R.G.)</i>	159
Original Papers	
Clinical evidence for tumor clonogen regeneration: interpretations of the data (Commentary) <i>S. M. Bentzen and H. D. Thames (Denmark, U.S.A.)</i>	161
Time-dose factors in positive neck nodes treated with irradiation only <i>J. M. G. Taylor, W. M. Mendenhall and R. S. Lavey (U.S.A.)</i>	167
Radical surgery and postoperative split-course radiotherapy in squamous cell carcinoma of the mobile tongue: factors influencing local control and the time to recurrence <i>M. Kajanti, L. R. Holsti and P. Holsti (Finland)</i>	174
Application of the LQ model to the interpretation of absorbed dose distribution in the daily practice of radiotherapy <i>P. Scalliet, J.-M. Cosset and A. Wambersie (Belgium, France)</i>	180
Suprahyoid Hodgkin's disease stage IA <i>E. M. Bessell, K. A. MacLennan, P. J. Toghil, I. O. Ellis, J. Fletcher and F. D. Dowling (U.K.)</i>	190

Is the dose-response relationship for local control of Hodgkin's disease obscured by lung inhomogeneity corrections? <i>N. A. Janjan, J. F. Wilson and D. L. Zellmer (U.S.A.)</i>	195
Inherent radiosensitivity testing of tumor biopsies obtained from patients with carcinoma of the cervix or endometrium <i>M. J. Allalunis-Turner, R. G. Pearcey, G. M. Barron, D. A. Bury, J. C. Babiak and L. H. Honoré (Canada)</i>	201
Short Communications	
A preliminary report on new efforts to decrease radiotherapy related small bowel toxicity <i>A. Snijders-Keilholz and J. B. Trimbois (The Netherlands)</i>	206
Malignant pineal teratomas: a report on three patients and the case for craniospinal irradiation following chemotherapy <i>S. Senan, R. Rampling and S. B. Kaye (U.K.)</i>	209
Meeting Agenda	213
Courses	214
Announcements	215
<i>Number 4, December 1991</i>	
Quality Assurance in Conservative Treatment of Early Breast Cancer A Consensus Meeting	
December 13 and 14, 1990 Tübingen, Germany	
Introduction <i>H. Bartelink and W. Van den Bogaert</i>	iv
EORTC Trial Protocol The Conservative Management of Breast Carcinoma by Tumourectomy and Radiotherapy: an EORTC phase III study (22881/10882) <i>H. Bartelink, E. van der Schueren, M. van Glabbeke and M. Pierart</i>	v
List of Participants of the Consensus Meeting	vi
The relation between radiotherapist, surgeon, pathologist and physicist in the treatment of early breast cancer <i>W. Van den Bogaert (Belgium)</i>	219
Rationale for a quality assurance programme in clinical trials of conservative management of breast carcinoma <i>J.-C. Horiot (France)</i>	222
Quality control in breast cancer treatment: what information can the surgeon provide? <i>I. S. Fentiman (U.K.)</i>	226
The impact of surgical and pathological findings on radiotherapy of early breast cancer <i>J. H. Borger (The Netherlands)</i>	230
Breast cancer treatment: which inhomogeneities have to be taken into account? <i>E. Grimaud and J. Chavaudra (France)</i>	237
Should inhomogeneity corrections be applied during treatment planning of tangential breast irradiation? <i>B. J. Mijnheer, S. Heukelom, J. H. Lanson, L. J. van Battum, N. A. M. van Bree and G. van Tienhoven (The Netherlands)</i>	239
Improved dose distribution homogeneity in conservative breast cancer irradiation <i>G. Garavaglia, C. Porepp and M. Josefowsky (Switzerland)</i>	245
Improved dose homogeneity in the breast using tissue compensators <i>W. P. M. Mayles, J. R. Yarnold and S. Webb (U.K.)</i>	248
Three-dimensional dose distribution of tangential breast treatment: a national dosimetry intercomparison <i>N. A. M. van Bree, L. J. van Battum, H. Huizenga and B. J. Mijnheer (The Netherlands)</i>	252

Breast irradiation in the lateral decubitus position: technique of the Institut Curie <i>A. Fourquet, F. Campana, J.-C. Rosenwald and J. R. Vilcoq (France)</i>	261
Improvement of the method used at Créteil for early breast cancer: 1970-1990 <i>G. Marinello, E. Calitchi, J. P. Le Bourgeois and B. Pierquin (France)</i>	266
In vivo dosimetry during tangential breast treatment <i>S. Heukelom, J. H. Lanson, G. van Tienhoven and B. J. Mijnheer (The Netherlands)</i>	269
Entrance and exit TL-dosimetry in the conservative treatment of breast cancer: a pilot study for the EORTC-Radiotherapy Cooperative Group <i>H. P. Hamers, K.-A. Johansson, J. L. M. Venselaar, P. de Brouwer, U. Hansson and C. Moudi (The Netherlands, Sweden)</i>	280
In vivo dosimetry for tangential breast irradiation: role of the equipment in the accuracy of dose delivery <i>G. Leunens, J. Verstraete, J. van Dam, A. Dutreix and E. van der Schueren (Belgium)</i>	285
Quality assurance of the EORTC trial 22881/10882: "assessment of the role of the booster dose in breast conserving therapy": the Dummy Run <i>G. van Tienhoven, N. A. M. van Bree, B. J. Mijnheer and H. Bartelink (The Netherlands)</i>	290
Quality assurance in daily treatment procedure: patient movement during tangential fields treatment <i>C. Westbrook, J. Gildersleve and J. Yarnold (U.K.)</i>	299
Quality control in the conservative treatment of breast cancer: patient dosimetry using silicon detectors <i>M. Ciocca, L. Landoni, C. Italia, P. Montanaro, P. Canesi and R. Valdagni (Italy)</i>	304
Tangential breast irradiation: influence of technique of set-up on transfer errors and reproducibility <i>C. Mitine, A. Dutreix and E. van der Schueren (Belgium)</i>	308
Early breast cancer irradiation after conservative surgery: quality control by portal localization films <i>R. Valdagni and C. Italia (Italy)</i>	311
Portal imaging for the verification of breast treatments <i>M. C. Kirby and P. C. Williams (U.K.)</i>	314
Accuracy of tangential breast treatment set-up: a portal imaging study <i>G. van Tienhoven, J. H. Lanson, D. Crabeels, S. Heukelom and B. J. Mijnheer (The Netherlands)</i>	317
Report on a Consensus Meeting of the EORTC Radiotherapy and Breast Cancer Cooperative Groups and the EUSOMA (European Society of Mastology) <i>H. Bartelink, G. Garavaglia, K.-A. Johansson, B. J. Mijnheer, W. Van den Bogaert, G. van Tienhoven and J. Yarnold</i>	323
